Response to Arguments

Applicant's arguments with respect to claim 12 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by lihoshi et al. (US 6,032,097).

Regarding claim 12, lihoshi et al. teaches a device (fig.1) for alerting the driver of vehicle trailing a host vehicle when a forward vehicle forward of the host is decelerating comprising a radar device (10) mounted integrally with said host vehicle with means to constantly measure a relative speed of said forward vehicle relative to said host vehicle (see figs. 4a, 4b, 5, and 7a at least; col. 5, lines 15 – 17 at least); a

Art Unit: 3661

CPU (module 4), mounted integrally with the host vehicle, with means to ascertain a relative acceleration from said relative speed, with further means to ascertain the host vehicle's acceleration relative to the road from data provided by electronic connection to host vehicle's speedometer system and further means to continuously monitor the absolute acceleration for significant negative (deceleration) values (col. 10, lines 29 – 38 and col. 13, lines 39 – 49 at least); and a CPU controllable luminous display (module 2), mounted integrally with said host vehicle and activated (using human I/F in item 2) whenever a significant negative value in the acceleration of the forward vehicle occurs (col. 10, lines 6 – 13 at least).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Wilson (US 5,504,472) teaches a vehicle deceleration warning light to warn a following driver of a rapid deceleration.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3661

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
